"VISION VIKSIT BHARAT @ 2047"

"VISION VIKSIT BHARAT @ 2047

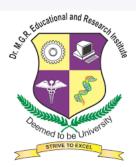

Dr MGR Educational and Research University [a graded autonomous status university] has been associated with the national and international regulatory organizations viz., ABET, UGC, NBA, IQAC and NIRF. In order to improve/enhance the quality of education and research, our university has associated with the leading national/international universities and entered with them several Memorandum of Understanding.

University has a special & exclusive Team with a prime objective of supporting students and faculty alike. The team interacts with the Universities located abroad and sources for potential opportunities for our students and faculty. Students across all the branches are eligible to apply for the program after fulfilling mandatory requirements specified by the University. The nature of the program varies depending upon the University and on the topic of mutual interest evinced by our students and opportunities that are available in the foreign university. The duration of the program will be of minimum 2 months and a maximum of 6 months. The team conducts periodic workshops for the students in order to create awareness of international opportunities so that students can take advantage of their services and come out with flying colors when they graduate from the University.

"VISION VIKSIT BHARAT @ 2047"

The objective of this program is to usher in research focus amongst the faculty members by collaborating with foreign universities in order to understand the best of breed standards and keep abreast with the latest technologies in their respective areas. This program is supported under the aegis of faculty development scheme organized by the Chancellor/President. The prospective faculty members are encouraged to apply for the scheme based on the fulfillment of minimum requirements.

The academic research is another activity which encompasses several faculty and departments. Special care has been taken to enhance the research activities in all fields of education. International scholars are being regularly invited to interact with the research scholars of our university.

An Outlook of TWO-day Seminar

The conceptual focus of "Viksit Bhart @ 2047" is to take several highly planned steps towards making India as a developed country in 2047, the country's centenary year of independence.

Inclusive Green Economy

A green economy refers to an economic system of production, distribution and consumption of goods and services that results in "improved human well-being and social equity, while significantly reducing environmental risks and ecological scarcities" (UNEP, 2011). The concept of green economy rose to clear prominence and relevance in 2008/2009 during the search for solutions to the triple crisis- Financial, Fuel and Food, as well as the challenges posed by environmental degradation and climate change. The Global Green New Deal, an output of the United Nation's Green Economy Initiative, launched by the United Nations Environment Programme, made a major contribution towards shaping the concept of green economy. The concept gained further momentum in the run up to the United Nations Conference on Sustainable Development (Rio+20), which was held in June 2012. The green economy in the context of sustainable development and poverty eradication was one of the two substantive themes of the Conference.

The Green Economy is an alternative vision for growth and development; one that can generate economic development and improvements in people's lives in ways consistent with advancing also environmental and social well-being. One significant component of a green economy strategy is to promote the development and adoption of sustainable technologies.

One can identify some avenues for future research. The major challenges we face during the process are five: (a) dealing with diffuse - and ever more global - environmental risks; (b) achieving radical and not just incremental sustainable technological change; (c) green capitalism and the uncertain business-as-usual scenario; (d) the role of the state and designing appropriate policy mixes; and (e) dealing with distributional concerns and impacts.

Some suggested TOPICS

- 1] Structural transformation strategies.
- 2] Inclusive green economy policies and strategies.
- 3] Synergies among inclusive green economy.
- 4] Structural transformation strategic frameworks.
- 5] Win-win attributes of inclusive green economy and structural transformation policies.
- 6] Challenges and opportunities in Green Economy
- 7] Integrated assessment methodologies and tools for inclusive green economy analysis.
- 8] Good practice & lessons in the implementation of green economy .
- 9] Policy instruments for an inclusive green economy.
- 10] Financing the transition to an inclusive green economy.
- 11] Structural Transformation of the Indian Economy.
- 12] India's experience in structural transformation.
- 13] Sustainable Development Goals (SDGs) and Green Financing.
- 14] Preparing Financial Sectors for a Green Future.
- 15] Climate Change Risks in the Financial Sector.

"VISION VIKSIT BHARAT @ 2047"

- 17] Green Finance Market.
- 18] Green and Sustainable Finance.
- 19] Understanding green finance.
- 20] Understanding sustainable finance.
- 21] Sustainable Finance Products.
- 22] Fundamentals of Sustainable Finance.
- 23] Sustainable Finance Market.
- 24] Relationship between sustainable development & green economy.
- 25] Examining the coordination between green finance and green economy.
- 26] Sustainable finance research.
- 27] Green finance in circular economy.
- 28] Bank financing of green economy.
- 29] An overview of green finance.
- 30] Principles of sustainable finance.
- 31] Green finance for sustainable development.
- 32] The role of the Green Climate Fund.
- 33] Investor preferences and sustainable investments.
- 34] Green finance and sustainable development.
- 35] The impact of government expenditure on green economic performance.
- 36] CSR Disclosure and Implications for green finance.
- 37] India Budget 2024: Fuelling Green Growth
- 38] India as a Green Economy.
- 39] India: Taking on the green-growth challenge.
- 40] The Imperative for Green Growth.
