

Objectives:

The main objective of conducting a National Seminar on "Envisioning Viksit Bharat@2047: Collaborative Efforts for Environmental Sustainability" is to create a network of educators, teachers and students who would incorporate aspects of sustainability in their study, research or pedagogy in line with the goals of Viksit Bharat.

The specific objectives are:

- To build professional collaborations between industry, educational institutions, students and educators for the collective sustainable development of society.
- To share the preliminary as well as advanced research and innovations in teaching and learning for sustainable development.
- To initiate discussions for harmonizing the visions and values of a sustainable society and implement those through sustainable education.
- Investigating strategies for efficient environmental planning and sustainable resource management
- To bring together experts, institutional leaders, practitioners and educators to share their best practices in managing resources for sustainability inside the classroom, in the institutions and the community at large.
- Encouraging the stakeholders to take up a reasonable attitude and accountability for protecting biodiversity.
- Creating an atmosphere to discuss and develop capabilities for evaluating the transformation of business models and the approaches undertaken for the use of resources within the circular economy.
- Emphasizing minimization, recovery, and treatment of waste rather than disposal of waste.

About the College

The College was established in 1956, and is affiliated to Osmania University, Hyderabad since its inception. It was recognized by UGC under 2f & 12B in 1972. The college is ISO 9001 & ISO 14001 certified. It was reaccredited with 'A+' grade by NAAC (CGPA 3.50) in 4th Cycle. The college campus is eco-friendly with serene environment and creates conducive environment for learning. The college organizes various environment & eco-sensitive awareness programs and has won Green Champion & Beat the Covid awards in recent past for its eco-sensitive activities.

About the Seminar

This seminar will focus on the collaborative efforts required for creating a pathway for the attainment of the vision of "Viksit Bharat @ 2047" by creating an awareness for attaining a conducive environment and capability for adaptation and mitigation, stimulating research-development, implementation of new technologies, natural system restoration, and undertaking shared but distinct responsibilities for the betterment of the environment. It will further provide a road map for technical, eco-friendly and green solutions, financial mechanisms, and effective policies, all of which are crucial in solving the most serious issue in the present scenario. This seminar will be a step towards enabling the stakeholders to proactively address environmental issues and to take positive steps toward building a more resilient, livable, and sustainable future.
